Release Date: Immediate, June 6, 2024

**PUBLIC INFORMATION WEB SITE NOTICE FOR
LIMESTONE PLAZA BRIDGE OVER LIMESTONE CREEK REHABILITATION PROJECT**

The Onondaga County Department of Transportation will host a Public Information Web Site to present the proposed rehabilitation of the Limestone Plaza Bridge Over Limestone Creek Project in the Town of Manlius from Thursday June 6, 2024 through Friday, June 28, 2024. To access the Website go to:

www.ongov.net

Click on the "Limestone Plaza Bridge Over Limestone Creek Rehabilitation Project" Information button.

A detailed overview of the project, along with a question and comment tab will be available at the web site. Representatives from the Onondaga County Department of Transportation and the design consultant will answer questions from interested parties and will obtain comments and input for final design.

The project is identified as the Rehabilitation of Limestone Plaza Bridge over Limestone Creek (County Bridge C-235). The project consists of removal of the existing bridge deck, removal and storage of the existing steel superstructure, installation of scour protection, substructure repairs, reinstallation of the stored steel superstructure, construction of a new cast-in-place concrete bridge deck, and reconstruction of the roadway at the approaches, including new guide rail. The project will eliminate structural deficiencies and hydraulic vulnerabilities, and extend the service life of the crossing.

This project is scheduled for construction in 2025.

This project is a locally administered federal aid project. It is being progressed by Onondaga County Department of Transportation in coordination with the New York State Department of Transportation and the Federal Highway Administration. Presently, the project is in the preliminary design phase.

Questions from the media regarding this project may be forwarded to Patty Jeschke, Senior Project Coordinator, by calling 435-3205 or by e-mail at patriciajeschke@ongov.net
