Subject: Ag district confusion

NOTICE: This email originated from **outside** of Onondaga County's email system. **Use caution** with links and attachments.

Earlier in the year I requested tax parcel 011.-03-10.0 in the Town of Otisco be removed from the Agricultural District 1 . I was confused and I thought I was requesting to be removed from the Ag exemption for tax purposes. I did not feel this lot met the criteria for an ag exemption. I now understand the ag district and an ag exemption are two different things.

I am requesting this parcel be left in the Ag district. It is surrounded by agricultural and woodland and will stay undeveloped as far as my husband, Richard Canfield, and I are concerned. Please consider voiding my earlier request for removal and keep this in the ag district. Thank you for your consideration on this matter.

Sincerely,

Jennifer Canfield
