Phone:    May we leave a message on this phone?     Yes     No

Medicaid # (Ex:XY12345Z)    If inpatient, anticipated release date:

## Eligibility Criteria Information

Diagnoses: <i>Primary ICD.10 Diagnosis Listed First (Attach Supporting Documentation)</i>	ICD 10 Codes
1	
2	
3	
4	

**To be considered an adult with a Severe Mental Illness, A must be met. In addition, B or C or D must be met.**

A. Designated Mental Illness Diagnosis     Yes     No

The individual is 18 years of age or older and currently meets the criteria for a psychiatric diagnosis according to the most current Diagnostic and Statistical Manual of Mental Disorders (DSM) other than alcohol or drug disorders, organic brain syndromes, developmental disabilities, or social conditions. ICD-CM psychiatric categories and codes that do not have an equivalent in DSM are also included mental illness diagnoses.

**AND**

B. SSI or SSDI due to Mental Illness     Yes     No

The individual is currently enrolled in SSI/SSDI due to a designated mental illness.

**OR**

C. Impairment in Functioning due to Mental Illness

The individual has experienced two of the following four functional limitations due to a designated illness over the past 12 months on a continuous or intermittent basis.

- |                              |                             |   |
|------------------------------|-----------------------------|---|
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Marked difficulty in self-care (I.e. personal hygiene, diet, medical care ect)  |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Marked restriction of activities of daily living  |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Marked difficulties in maintaining social functioning   |
| <input type="checkbox"/> Yes | <input type="checkbox"/> No | Frequent deficiencies of concentration, persistence or pace resulting in failure to complete tasks in a timely manner in work, home or school settings. |

**OR**

D. Reliance on Psychiatric Treatment, Rehabilitation and Supports     Yes     No

A documented history shows that the individual, at some prior time, met the threshold for C (above) but symptoms and/or functioning problems are currently attenuated by medication or psychiatric rehabilitation and supports. Medication refers to psychotropic medications which may control primary manifestations of mental disorder, e.g.. hallucinations, but may or may not affect functional limitations imposed by the mental disorder. Psychiatric rehabilitation and supports refer to highly structured and supportive settings, which may greatly reduce the demands placed on the individual and thereby minimize overt symptoms and signs of underlying mental disorder.
