- 11. MITIGATION ACTIONS22**
- APPENDIX A. HAZARD MAPS42**
- APPENDIX B. LETTER OF INTENT.....46**
- APPENDIX C. PLAN ADOPTION48**

This Annex details the hazard mitigation elements specific to the Village of East Syracuse, a participating jurisdiction in the 2025 Onondaga County Hazard Mitigation Plan update. This Annex is not intended to be a standalone document but supplements the information contained in **Volume 1 (Countywide Planning Elements)**. Therefore, all sections of **Volume 1**, including the planning process, hazard identification and risk assessment, mitigation strategy (includes mitigation goals and objectives), and plan maintenance, apply to and were met by the Village of East Syracuse. This Annex provides additional information specific to the Village, with a focus on providing additional details on the hazard risk assessment and mitigation strategy (i.e., mitigation actions) for this community.

1. HAZARD MITIGATION LOCAL PLANNING TEAM

The following individuals have been identified as the Village of East Syracuse Local Planning Team for the 2025 Onondaga County Hazard Mitigation Plan. These individuals participated in all aspects of the planning process and developed a risk and vulnerability assessment, capability assessment, and mitigation strategy (including mitigation actions) specific to the jurisdiction.

Name	Title	Department
Randall Hughson	Public Works Superintendent	Department of Public Works
Lorene Dadey	Mayor	Board of Trustees
Chris Shields	Director of Code Enforcement	Building and Code Enforcement Department

2. MUNICIPAL PROFILE

The Village of East Syracuse lies in the interior of Onondaga County and has a total area of 1.6 square miles. The Village of East Syracuse is located in the Town of DeWitt. *The Town of DeWitt has developed its own dedicated annex as part of this Plan.* It is bordered by the City of Syracuse to the west and the Town of DeWitt to the south, west, and north. The Village Center is located at the intersection of Manlius Street and North Center Street. The Village of East Syracuse is located at the crossroads of New York State Routes 690 and 481, south of the New York State Thruway.

2.1. Population

In 2023, the Village of East Syracuse had a population of 3,039, a 2.4% increase from the estimated 2018 population of 2,968. **Table 1** summarizes population distribution between 2010 and 2023, and the percentage of the 2023 population that is under five (5) years old, over 65 years old, and living below the poverty level.

Table 1. Population Trends

Population				Underserved Population		
2010 ¹	2018 ²	2023 ³	Population Change (2018 – 2023)	Youth ³ (Under 5 years old)	Elderly ³ (Over 65 years old)	Below Poverty Level ⁴
3,092	2,968	3,039	2.4%	3.1%	15.6%	10.1%

2.2. History and Cultural Resources

The Village of East Syracuse was incorporated on November 12, 1881. The Village grew alongside the New York Central Railroad System, which accommodated the needs of the railroad workers and their families. Its growth stemmed from the development of freight yards, shops, and other railroad facilities of the New York Central and Hudson River Railroad Company (now known as Conrail). The railroad yards became the major classification yard on the New York Central System.

The current settlement, initially named Messina, grew along the northern edge of the Erie Canal, across from Headson's Landing, a busy canal port with the only bridge across the Canal east of downtown Syracuse.

East Syracuse is currently home to Bristol Labs, a division of Bristol-Myers Squibb. This location used to be the world's largest source of penicillin; however, production ended in 2005. Currently, Bristol Labs develops a number of newer drugs and houses a state of the art ramp-up facility designed to quickly adapt and produce moderate quantities of new drugs for clinical trials.

3. GROWTH/DEVELOPMENT TRENDS

Understanding development trends can help evaluate whether the jurisdiction’s vulnerability has increased, decreased, or remained the same. **Table 2** summarizes the total housing units built in the Village of East Syracuse between 2019 and 2023.⁵

Table 2. Housing Units Built (2019 – 2023)

Type	2019	2020	2021	2022	2023
Single-Family Units	0	1	0	0	0
Multi-Family Units	0	0	0	0	0
2-Family Units	0	0	0	0	0
3-Family Units	0	0	0	0	0
Apartment Units	0	0	0	0	0
Total Units	0	1	0	0	0

⁵ Data provided by the Onondaga County Department of Planning based on Real Property Data (2024).

The Onondaga County Housing Needs Assessment, a component of the County’s Comprehensive Plan, explores the County’s housing market and its challenges in greater depth and argues that one of the County’s greatest housing needs is an improved approach to land use planning. In the Assessment, it is stated that there are similarities and affinities between certain groups of municipalities. Therefore, the County was sub-divided into seven (7) sub-regions, each of which covers multiple municipalities. The municipalities within each sub-region share sufficient geographic and market characteristics to be treated as a single place for further understanding of the county housing market.

The Village of East Syracuse is in the Outer Ring East sub-region. Total household growth between 2000 and 2020 was 8.0% which is below the average of all the towns within the County (the average of all the County towns/villages was 12.0%). If demand continues to grow in the County, Outer Ring East is well positioned to capture a share of the growth. Overbuilding of typical single-family for sale products is a potential threat to market health as household growth tilts in the direction of rental while the growth in owner households comes from smaller and older households. Under a low growth scenario, it is likely that Outer Ring East would see a decrease in the total number of homeowners and a growing number of renter households. It is also likely that some conversion of owner-occupied houses to rental could occur. Market changes would happen gradually, with strong areas remaining strong for longer, and new single-family development would maintain a feeling of growth and success if it occurs. The degree and speed of stagnation, and possible market decline, would be dependent on the amount of typical sprawling ownership housing development in the County. The greater the number of units built for the ownership market, the higher the risk of rental conversion or vacancy of formerly owner-occupied houses.

Table 3 summarizes major recent residential/commercial development (in the past five (5) years), and any known or anticipated significant residential/commercial development and significant infrastructure development, as of December 2024, that is likely to occur within hazard-prone areas in the next five (5) years.

Table 3. Growth and Development

Property or Development Name	Location	Type <i>(e.g., residential, commercial)</i>	# of Units/ Structures	Known Hazard Zone(s)	Status of Development
Recent Development in the Past Five (5) Years (2019 – 2024)					
The Village has not experienced significant development in hazard-prone areas over the past five (5) years.					
Known or Anticipated Development in the Next Five (5) Years (2024 – 2029)					
The Village does not anticipate significant development in hazard-prone areas over the next five (5) years.					

3.1. Changes in Priority

The overall hazard mitigation priorities have not significantly changed for the Village of East Syracuse since the last Plan update. However, mitigation actions from the previous Plan were updated, and a more concerted effort to achieve equitable outcomes for all communities, including underserved communities and socially vulnerable populations, has been implemented.

4. CAPABILITY ASSESSMENT

Federal regulations require hazard mitigation plans to identify goals for reducing long-term vulnerabilities to the identified hazards in the planning area (Section 201.6(c)(3)(i)). A critical step in developing specific hazard mitigation actions and projects is assessing existing authorities, policies, programs, and resources and capabilities, and using or modifying local tools to reduce losses and vulnerability from profiled hazards.

A capability assessment was conducted for the Village of East Syracuse’s authorities, policies, programs, and resources. Goals and mitigation actions were developed using input from this assessment. Information regarding

the Village’s implementation of and continued participation in the National Flood Insurance Program (NFIP) can be found in Section 5 of this Annex.

The Local Planning Team assessed the Village’s capabilities that can contribute to the reduction of long-term vulnerabilities to hazards. The capabilities include the following categories:

- Planning and Regulatory Capabilities
- Administrative and Technical Capabilities
- Fiscal Capabilities
- Education and Outreach Capabilities

Additionally, ways to expand on and improve these existing policies and programs to integrate hazard mitigation into the day-to-day activities and programs of the Village were considered.

4.1. Planning and Regulatory Capabilities

Table 4 includes local ordinances, policies, and laws to manage growth and development (e.g., land use plans, capital improvement plans, transportation plans, emergency preparedness and response plans, building codes, and zoning ordinances).

Table 4. Planning and Regulatory Tools

Capability Category	Yes/No	Authority <i>(local, county, state, federal)</i>	Responsible Department/ Agency	Code Citation and Comments <i>(e.g., Code Chapter, name of plan, explanation of authority, etc.)</i>
Planning Capability				
Comprehensive Plan	No	N/A	N/A	N/A
Capital Improvements Plan	No	N/A	N/A	N/A
Floodplain Management / Basin Plan	No	N/A	N/A	N/A
Stormwater Management Plan	Yes	Local	Department of Public Works	Member of the Central New York (CNY) Stormwater Coalition
Open Space Plan	No	N/A	N/A	N/A
Stream Corridor Management Plan	No	N/A	N/A	N/A
Watershed Management or Protection Plan	No	N/A	N/A	N/A
Economic Development Plan	No	N/A	N/A	N/A
Comprehensive Emergency Management Plan	No	N/A	N/A	N/A
Emergency Operation Plan	No	N/A	N/A	N/A
Evacuation Plan	No	N/A	N/A	N/A

Capability Category	Yes/No	Authority (local, county, state, federal)	Responsible Department/ Agency	Code Citation and Comments (e.g., Code Chapter, name of plan, explanation of authority, etc.)
Post-Disaster Recovery Plan	No	N/A	N/A	N/A
Transportation Plan	No	N/A	N/A	N/A
Strategic Recovery Planning Report	No	N/A	N/A	N/A
Climate Adaptation Plan	No	N/A	N/A	N/A
Resilience Plan	No	N/A	N/A	N/A
Regulatory Capability				
Building Code	Yes	State, Local	Building and Code Enforcement Department	Chapter 16 of the New York State Building Code Chapter 152 of the Village Code
Zoning Ordinance	Yes	Local	Building and Code Enforcement Department	Chapter 340 of the Village Code
Subdivision Ordinance	Yes	Local	Building and Code Enforcement Department	Chapter 340-13 of the Village Code
NFIP Flood Damage Prevention Ordinance	Yes	Local	Building and Code Enforcement Department	Chapter 184 of the Village Code
NFIP: Cumulative Substantial Damages	No	N/A	N/A	N/A
NFIP: Freeboard	Yes	State, Local	Building and Code Enforcement Department	Chapter 16 of the New York State Building Code State mandated two (2) feet above the BFE for all construction, both residential and non-residential.
Growth Management Ordinances	No	N/A	N/A	N/A
Site Plan Review Requirements	Yes	Local	Planning Board	Chapter 296-13 and 340-11 of the Village Code
Stormwater Management Ordinance	Yes	Local	Department of Public Works	Chapter 300 of the Village Code
Municipal Separate Storm Sewer System (MS4)	Yes	Local	Department of Public Works	Chapter 300 of the Village Code
Natural Hazard Ordinance	No	N/A	N/A	N/A
Post-Disaster Recovery Ordinance	No	N/A	N/A	N/A

Capability Category	Yes/No	Authority (local, county, state, federal)	Responsible Department/ Agency	Code Citation and Comments (e.g., Code Chapter, name of plan, explanation of authority, etc.)
Real Estate Disclosure Requirement	Yes	State	New York State Department of State, Real Estate Agent	New York Code – Article 14 §460-467 (Property Condition Disclosure Act)
Other (Special Purpose Ordinances [i.e., sensitive areas, steep slope])	No	N/A	N/A	N/A

4.2. Administrative and Technical Capabilities

The administrative and technical capabilities listed in **Table 5** include community (i.e., public and private) staff, their skills, and tools that can be used for mitigation planning and implementation. This capability includes engineers, planners, emergency managers, Geographic Information System (GIS) analysts, building inspectors, grant writers, and floodplain managers. Small communities may rely on other government entities, such as counties or special districts, for resources.

Table 5. Administrative and Technical Capabilities

Capability	Yes/No	Position/Department/Agency
Administrative Capability		
Planning Board	Yes	
Mitigation Planning Committee	No	N/A
Environmental Board/Commission	No	N/A
Open Space Board/Committee	Yes	Planning Board Building and Code Enforcement Department
Economic Development Commission/Committee	Yes	
Maintenance programs to reduce risk	Yes	Building and Code Enforcement Department Department of Public Works
Mutual aid agreements	Yes	Fire Department
Technical/Staffing Capability		
Planner(s) or engineer(s) with knowledge of land development and land management practices	Yes	Planning Board Engineering Consultant
Engineer(s) or professional(s) trained in construction practices related to buildings and/or infrastructure	Yes	Planning Board Engineering Consultant
Planners or engineers with an understanding of natural hazards	Yes	Engineering Consultant
NFIP Floodplain Administrator	Yes	Code Enforcement Officer, Building and Code Enforcement Department
Surveyor(s)	Yes	Engineering Consultant
Personnel skilled or trained in GIS applications	Yes	Engineering Consultant
Scientist familiar with natural hazards	No	N/A

Capability	Yes/No	Position/Department/Agency
Warning systems/services	Yes	Onondaga County Emergency Communications (911)
Emergency Manager	No	N/A
Grant writer(s)	Yes	Village Clerk Engineering Consultant
Staff with expertise or training in benefit/cost analysis	Yes	Engineering Consultant
Professionals trained in conducting damage assessments	Yes	Engineering Consultant

4.3. Fiscal Capabilities

Table 6 lists fiscal capabilities available to the Village that may be used to implement mitigation activities to reduce risk and enhance resiliency. This capability includes available funding sources from local budgets, state and federal grants, potential cost-sharing arrangements with private entities, existing insurance policies, and the ability to generate additional revenue through fees and bonds related to mitigation.

Table 6. Fiscal Capabilities

Financial Resources	Accessible or Eligible to Use
Community Development Block Grants (CDBG, CDBG-DR)	Yes
Federal Hazard Mitigation Assistance Program (<i>i.e.</i> , Hazard Mitigation Grant Program (HMGP), HMGP Post Fire, Flood Mitigation Assistance (FMA) Program)	Yes
Capital Improvements Project Funding	Yes
Authority to Levy Taxes for specific purposes	Yes
User fees for water, sewer, gas, or electric service	Yes
Impact fees for homebuyers or developers of new development/homes	No
Stormwater Utility Fee	No
Incur debt through general obligation bonds	No
Incur debt through special tax bonds	No
Incur debt through private activity bonds	No
Withhold public expenditures in hazard-prone areas	No
Other federal or state funding programs	No
Open Space Acquisition funding programs	No

4.4. Education and Outreach Capabilities

Table 7 lists the Village’s education and public outreach capabilities that can be used to inform residents about potential hazards, educate on mitigation strategies, and encourage proactive actions to reduce the community’s impacts to disasters. These capabilities include fire safety programs, hazard awareness campaigns, public information, and communications offices.

Table 7. Education and Outreach Resources

Resource	Yes/No	Position/Department/Agency
Public Information Officer	No	N/A
Personnel skilled or trained in website development	No	N/A
Hazard mitigation information available on the jurisdiction’s website	Yes	Department of Public Works
Utilize social media for hazard mitigation education	No	N/A
Citizen boards or commissions that address issues related to hazard mitigation	No	N/A
Other programs already in place that could be used to communicate hazard-related information	No	N/A
An established warning system for hazard events	Yes	Onondaga County Emergency Communications (911)

4.5. Community Classifications

The community classification relates to the community’s ability to provide effective services to reduce its vulnerability to the identified hazards. These classifications can be viewed as a gauge of the community’s capabilities across all phases of emergency management (i.e., preparedness, response, recovery, and mitigation) and are used as underwriting parameters to determine the costs of various insurance forms. Table 8 summarizes classifications for community programs available to the Village of East Syracuse.

Table 8. Community Classifications

Program	Yes/No	Classification <i>(if applicable)</i>	Date Classified <i>(if applicable)</i>
Community Rating System (CRS)	No	N/A	N/A
Building Code Effectiveness Grading Schedule (BCEGS)	No	N/A	N/A
Public Protection (ISO Fire Protection Classes 1 to 10)	No	N/A	N/A
New York State Department of Environmental Conservation Climate Smart Community	Yes	-	-
Storm Ready Certification	No	N/A	N/A
Firewise Communities classification	No	N/A	N/A
Natural disaster/safety programs in/for schools	No	N/A	N/A
Organizations with mitigation focus (advocacy group, non-government)	No	N/A	N/A
Public private partnership initiatives addressing disaster-related issues	No	N/A	N/A

4.6. Self-Assessment of Capability

Table 9 provides an approximate measure of the Village of East Syracuse’s capability to work in a hazard mitigation capacity and/or effectively implement hazard mitigation strategies to reduce hazard vulnerabilities.

Table 9. Self-Assessment Capability for the Municipality

Capability Area	Degree of Hazard Mitigation Capability		
	Limited <i>(If limited, what are your obstacles?)</i>	Moderate	High
Planning and Regulatory Capabilities		X	
Administrative and Technical Capabilities		X	
Fiscal Capabilities	X <i>(Low funds)</i>		
Education and Outreach Capabilities		X	
Community Political Capabilities		X	
Community Resiliency Capabilities		X	
Capability to integrate mitigation into municipal processes and activities		X	

4.7. Needs to Expand/Improve Capabilities

Based on the capability self-assessment in Section 4.6, the Village of East Syracuse identified existing authorities, policies, programs, funding, and/or resources that need to be expanded and/or improved in order to support the implementation of the hazard mitigation initiatives identified in this Plan (e.g., mitigation actions).

- To increase the Village’s capability to implement hazard mitigation, apply for hazard mitigation grants, and fund the local match for hazard mitigation grants, the Village needs to expand its grant writing capabilities by potentially hiring more grant writers.
- Village codes and ordinances (e.g., building, zoning, protecting steep slopes, wetlands) should be reviewed based on developing trends in identified hazards and mitigation measures that can make them more effective at preventing losses.

5. NATIONAL FLOOD INSURANCE PROGRAM

The Village of East Syracuse is a member of the National Flood Insurance Program (NFIP), but has chosen not to participate in the NFIP Community Rating System (CRS) Program. The Village is in good standing with the NFIP through adoption and enforcement of floodplain management requirements (e.g., regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. The Village’s NFIP participation information is listed in Table 10.

Table 10. NFIP Participation Information

CID	NFIP Participation Date	Current Effective FIRM Date	CRS Entry Date	CRS Current Effective Date	CRS Rating
360574	4/12/1974	11/4/2016	N/A	N/A	N/A

5.1. NFIP Floodplain Administrator

All NFIP participating jurisdictions have a designated Floodplain Administrator who is charged with enforcing floodplain regulations, routinely monitoring the floodplains, and providing community assistance, such as encouraging owners to maintain flood insurance. The Village of East Syracuse Floodplain Administrator information is listed in **Table 11**.

Table 11. Floodplain Administrator

Name	Title	Department	Phone Number
Chris Shields	Director of Code Enforcement	Building and Code Enforcement Department	(315) 437-3541 (Ext. 3206)

5.2. Repetitive Loss and Severe Repetitive Loss Property

FEMA defines a Repetitive Loss property as an NFIP-insured property meeting at least one (1) of the following paid loss criteria since 1978, regardless of any changes in ownership:

- Four (4) or more separate claims payments greater than \$5,000 each (including building and contents payment).
- Two (2) or more separate flood insurance claims payments (building payments only), where the total of the payments is greater than the property’s current value.

Additionally, to receive a designation, at least two (2) of the claim payments must occur within 10 years of one another.⁶

A Severe Repetitive Loss property is defined by FEMA as any NFIP-insured single-family or multi-family residential building meeting at least one (1) of the following paid loss criteria since 1978 or from a building constructed after 1978, regardless of any changes in ownership:⁷

- That has incurred flood-related damage for which four (4) or more separate claims payments have been made, with the amount of each claim (including building and contents payments) exceeding \$5,000, and with the cumulative amount of such claims payments exceeding \$20,000.
- For which at least two (2) separate claims payments (building payments only) have been made under such coverage, with the cumulative amount of such claims exceeding the market value of the building.

Table 12 summarizes FEMA Repetitive Loss and Severe Repetitive Loss properties within the Village of East Syracuse.

⁶ Federal Emergency Management Agency, National Flood Insurance Program. (2023). A Policyholder’s Guide to Severe Repetitive Loss. Retrieved from https://agents.floodsmart.gov/sites/default/files/fema_nfip-policyholders-guide-severe-repetitive-loss_brochure_07-2023.pdf.

⁷ Federal Emergency Management Agency, National Flood Insurance Program. (2021). National Flood Insurance Program: Flood Insurance Manual. Retrieved from https://www.fema.gov/sites/default/files/documents/fema_nfip-all-flood-insurance-manual-apr-2021.pdf.

Table 12. Repetitive Loss and Severe Repetitive Loss Properties

Repetitive Loss Properties		Severe Repetitive Loss Properties	
Total	Occupancy	Total	Occupancy
0	--	0	--
<p>Occupancy Type: Single Family = Single family residence • Two (2)-Four (4) Unit Residential Building = Two (2)-four (4) unit residential building • More Than Four (4) Units Residential Building = Residential building with more than four (4) units • Non-Residential Building = Non-residential building • Non-Residential Business = Non-residential business • Single Family Residential Building = Single-family residential building with the exception of a mobile home or a single residential unit within a multi-unit building • Residential (2, 3, or 4 units) Non-Condo Building = Residential non-condo building with two (2), three (3), or four (4) units seeking insurance on all units • Residential (5 or more units) Non-Condo Building = Residential non-condo building with 5 or more units seeking insurance on all units • Residential Mobile/Manufactured Home = Residential mobile/manufactured home • Residential Condo Association = Residential condo association seeking coverage on a building with one (1) or more units • Single Residential Unit = Single residential unit within a multi-unit building • Non-Residential Mobile/manufactured Home = Non-residential mobile/manufactured home • Non-Residential Building = Non-residential building • Non-Residential Unit = Non-residential unit within a multi-unit building</p>			

Table 13 summarizes the NFIP active policies and coverage in force data for the Village of East Syracuse.

Table 13. NFIP Policies

NFIP Policies	Insurance in Force	Total Claims Paid	Sum of Claims Paid
9	\$8,073	12	\$223,722

5.3. Participation Activities

The Village of East Syracuse NFIP participation over the last five (5) years includes the following:

- Provides the following services – permit review, GIS, inspections, and engineering capability.
- Enforces local floodplain regulations and monitors compliance.
- Floodplain management regulations meet or exceed FEMA or State minimum requirements.

5.3.1. Regulatory

Flood Damage Prevention Ordinance

The Village of East Syracuse’s Flood Damage Prevention Chapter (*Chapter 184 of the Village Code*) was adopted to promote the public health, safety, and general welfare, and to minimize public and private losses due to flood conditions in specific areas by provisions designed to:

- Regulate uses which are dangerous to health, safety and property due to water or erosion hazards, or which result in damaging increases in erosion or in flood heights or velocities.
- Require that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction.
- Control the alteration of natural floodplains, stream channels, and natural protective barriers which are involved in the accommodation of floodwaters.
- Control filling, grading, dredging and other development which may increase erosion or flood damages.
- Regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.
- Qualify for and maintain participation in the NFIP.

The objectives of this Chapter are to:

- Protect human life and health.
- Minimize expenditure of public money for costly flood control projects.
- Minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public.
- Minimize prolonged business interruptions.
- Minimize damage to public facilities and utilities, such as water and gas mains, electric, telephone, and sewer lines, streets and bridges located in areas of special flood hazard.
- Help maintain a stable tax base by providing for the sound use and development of areas of special flood hazard so as to minimize future flood blight areas.
- Provide that developers are notified that property is in an area of special flood hazard.
- Ensure that those who occupy the areas of special flood hazard assume responsibility for their actions.

Substantial Damage

Substantial damage means damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50% of the market value of the structure before the damage occurred. (*Chapter 184 of the Village Code*)

Substantial Improvement

Substantial improvement means any reconstruction, rehabilitation, addition, or other improvement of a structure, the cost of which equals or exceeds 50% of the market value of the structure before the "start of construction" of the improvement. The term includes structures which have incurred "substantial damage," regardless of the actual repair work performed. The term does not, however, include either:

- A. Any project for improvement of a structure to correct existing violations of state or local health, sanitary, or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to assure safe living conditions; or
- B. Any alteration of an "historic structure," provided that the alteration will not preclude the structure's continued designation as an "historic structure." (*Chapter 184 of the Village Code*)

There are other local ordinances, plans, or programs (e.g., site plan review) that support floodplain management and meet the NFIP requirements.

Substantial Damage/Substantial Improvement Determination Process

The Village of East Syracuse's Substantial Damage/Substantial Improvement determination process ensures compliance with the NFIP and the local floodplain management ordinances (as outlined earlier in this section). To determine whether a structure has sustained Substantial Damage/Substantial Improvement after a flood event, the Village uses a combination of the FEMA Substantial Damage Estimator tool and field assessments. Each affected structure within the SFHA is evaluated by comparing the cost to restore it to its pre-damage conditions with its market value before the flood. If the repair cost equals or exceeds 50% of the structure's pre-damage market value, it is classified as substantially damaged.

6. HAZARD MITIGATION PLAN INTEGRATION

For a community to successfully reduce long-term risk, hazard mitigation must be integrated into day-to-day planning mechanisms and initiatives. Plan integration is the process by which communities critically assess the existing planning framework and align efforts with the goal of reducing long-term risks and building a more resilient community. It involves a two (2) way exchange of information and incorporation of ideas and concepts between hazard mitigation plans and other community plans. In particular, plan integration involves incorporating hazard mitigation principles and actions into other plans and incorporating planning mechanisms into hazard mitigation plans. Plan integration involves community plans, policies, codes, and programs that guide development, roles, and responsibilities in implementing these capabilities. Additionally, plan integration is achieved through the involvement of key staff and community officials in collaborative hazard mitigation planning.

6.1. Existing Plan Integration

A hazard mitigation plan must explain how the jurisdiction incorporated the previous Plan update over the last five (5) years to demonstrate progress in local mitigation efforts. In the performance period since the adoption of the previous Hazard Mitigation Plan, the Village of East Syracuse has made progress on integrating components of the hazard mitigation strategy (e.g., goals, objectives, and actions) into planning initiatives and mechanisms. **Table 14** highlights the planning mechanisms/initiatives in which the previous Plan was integrated and the information integrated.

Table 14. Current Plan Integration

Planning Initiative	Current Integration Description
Stormwater Management Program	The Village of East Syracuse regularly reviews stormwater management designs to ensure compliance with the New York State Department of Environmental Conservation (NYSDEC) State Pollutant Discharge Elimination System (SPDES) Permit requirements. The NYSDEC stormwater requirements include stormwater quantity provisions related to surface flooding and new site development or redevelopment, which require mitigation of proposed peak runoff rates.
Ordinances	The Village has multiple local ordinances pertaining to the mitigation of hazards. These ordinances include the establishment of the Planning Board and Zoning Board of Appeals, Building Construction and Fire Prevention Ordinance (Chapter 152 of the Village Code), Flood Damage Prevention Ordinance (Chapter 184 of the Village Code), Stormwater Management Ordinance (Chapter 300 of the Village Code), Zoning Ordinance (Chapter 340 of the Village Code), and the Subdivision Regulations (Chapter 340-13 of the Village Code).
Retrofitting/Removal of Structures from Hazard-Prone Areas	The Village supports the retrofitting, purchase, or relocation of structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. The Village works to identify facilities that are viable candidates for each strategy based on cost-effectiveness. The implementation of these hazard mitigation actions is based on available funding. <i>Refer to mitigation action VES-1.</i>
Public Outreach	The Village’s website provides information on safety and hazard mitigation, including local emergency response contact information, current project updates, and links to related ordinances and plans. Furthermore, the Village conducts and facilitates community outreach for residents and businesses, promoting natural hazard risk reduction. <i>Refer to mitigation action VES-2.</i>

6.2. Potential Future Integration

A hazard mitigation plan must explain how the jurisdiction intends to incorporate this Plan update into planning mechanisms over the next five (5) years. The capability assessment presented in Section 4 of this Annex identifies

codes, plans, and programs that provide opportunities for integration. **Table 15** outlines planning mechanisms/initiatives that do not currently integrate the goals and recommendations of this Plan but provide opportunities to do so in the future.

Table 15. Potential Future Integration

Planning Initiative	Potential Integration Description
Ordinances	Hazard mitigation could be integrated into future updates of the zoning, building, and subdivision ordinances to inform appropriate use of property within the Village. Portions of this Hazard Mitigation Plan should be reviewed to consider any future improvements to the codes, if applicable.
Local Budget	The Village could include a line item for mitigation projects/activities in the municipal budget and/or capital improvement budget.
Public Outreach	The Village could expand the information available on the Village’s website to include material on the hazards outlined in this Hazard Mitigation Plan and on climate change impacts to those hazards.

The Village’s Local Planning Team will identify all relevant planning initiatives scheduled for update in the next year and during the annual update process of the Hazard Mitigation Plan. Additionally, the Local Planning Team will identify opportunities to integrate key elements of the Hazard Mitigation Plan, specifically relevant strategies, into the planning initiatives. Mitigation actions were identified to promote plan integration in future revisions of this Plan.

7. SIGNIFICANT HAZARD PAST EVENTS

A complete risk assessment, including past incidents, for each identified hazard of concern, can be found in **Volume 1** of this Plan. A summary of past events is provided under each hazard profile and includes a chronology of events that have affected the County and its municipalities.

8. HAZARD VULNERABILITY AND IMPACT ASSESSMENT

Exposure and vulnerability to certain hazards affect the entire County, and others are geographically defined. Although the entire County may be vulnerable to these hazards, their impacts may vary based on existing community conditions (e.g., underserved populations or those with access and functional needs may be more susceptible under certain conditions).

Table 16 outlines the *unique vulnerabilities and impacts* for the Village of East Syracuse and addresses only the hazards relevant to the jurisdiction. A complete risk assessment for each identified hazard of concern is in **Volume 1** of this Plan. Hazard mapping can be found in **Appendix A** of this Annex.

Table 16. Hazard Vulnerability and Impact Assessment

Hazard	Vulnerabilities and Impacts
Drought	The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to drought; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.
Earthquake	The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to earthquake events; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.

Hazard	Vulnerabilities and Impacts
<p>Heat Wave/Extreme Heat</p>	<p>The Village has two (2) senior housing complexes that are uniquely vulnerable to heat waves/extreme heat events. The elderly population is uniquely vulnerable to extreme temperatures because of their reduced ability to regulate body temperature. Many elderly individuals have pre-existing conditions that can exacerbate the impacts of extreme heat and/or are taking medication that interferes with their body’s temperature control. Additionally, in the event of a power outage during a heat wave/extreme heat event, this population may not have access to air conditioning.</p>
<p>Flood <i>(riverine, flash/urban, ice jam, dam and levee failure)</i></p>	<p>Several streets and residential properties experience flooding due to poor drainage and areas of the Village without storm sewers. Areas within the Village that are consistently impacted by flooding include the following:</p> <ul style="list-style-type: none"> • Hartwell Avenue • E. Second Street • W. Second Street • E. Yates Street • E. Manlius Street • E. First Street • Manlius Center Road
<p>Geological Hazards <i>(landslides, land subsidence, mudboils)</i></p>	<p>The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to geological hazards; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.</p>
<p>Harmful Algal Bloom</p>	<p>The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to harmful algal blooms; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.</p>
<p>Invasive Species and Infestation <i>(Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases)</i></p>	<p>The Village has experienced ash tree damage due to the Emerald Ash Borer.</p>
<p>Severe Weather <i>(severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm)</i></p>	<p>The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to severe weather; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.</p>
<p>Winter Weather <i>(blizzards, heavy snow, ice storms, cold wave/extreme cold, nor’easter)</i></p>	<p>The Village has two (2) senior housing complexes that are uniquely vulnerable to cold waves/extreme cold events. The elderly population is uniquely vulnerable to extreme temperatures because of their reduced ability to regulate body temperature. Many elderly individuals have pre-existing conditions that can exacerbate the impacts of extreme cold and/or are taking medication that interferes with their body’s temperature control. Additionally, in the event of a power outage during a cold wave/extreme cold event, this population may not have access to a heater.</p>
<p>Wildfire <i>(wildfire smoke)</i></p>	<p>The Local Planning Team determined that the Village does not have unique vulnerabilities and impacts to wildfire; rather, the jurisdiction’s vulnerability and impacts are consistent with those experienced throughout the County.</p>

The Village evaluated whether vulnerability in hazard-prone areas had increased, decreased, or remained the same for each natural hazard identified in this Hazard Mitigation Plan. Climate change, changes in population,

infrastructure expansion, and economic shifts that can affect vulnerability were considered. For example, if planned development is in an identified hazard area or is not built to the updated building codes, it may increase the community’s vulnerability to future hazards and disasters. On the other hand, if development occurred with mitigation practices in place, the vulnerability may have remained the same or decreased. Additionally, shifting demographics (e.g., underserved population) were taken into consideration.

Table 17 outlines whether climate change has increased or decreased the Village’s vulnerability (i.e., exposure) and impact to each natural hazard over the past five (5) years, and the effect of climate change on the future probability of occurrence and impacts from each natural hazard.

Table 17. Climate Change Current and Future Vulnerability and Impact

Hazard	Vulnerability and Impact
<i>Current Vulnerability and Impact</i>	
Drought	Remained the Same
Earthquake	Remained the Same
Heat Wave/Extreme Heat	Remained the Same
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	Remained the Same
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	Remained the Same
Harmful Algal Bloom	Remained the Same
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	Remained the Same
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	Remained the Same
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor’easter</i>)	Remained the Same
Wildfire (<i>wildfire smoke</i>)	Remained the Same
<i>Future Vulnerability and Impact</i>	
Drought	No Change Anticipated
Earthquake	No Change Anticipated
Heat Wave/Extreme Heat	No Change Anticipated
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	No Change Anticipated
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	No Change Anticipated
Harmful Algal Bloom	No Change Anticipated
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	Increase
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	No Change Anticipated
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor’easter</i>)	No Change Anticipated
Wildfire (<i>wildfire smoke</i>)	No Change Anticipated

Table 18 outlines whether changes in population within the Village over the past five (5) years have increased or decreased the vulnerability (i.e., exposure) and impact to these natural hazards, and the anticipated effects changes in population may have on the future probability of occurrence and impacts from these natural hazards.

Table 18. Changes in Population Current and Future Vulnerability and Impact

Hazard	Vulnerability and Impact
<i>Current Vulnerability and Impact</i>	
Drought	Remained the Same
Earthquake	Remained the Same
Heat Wave/Extreme Heat	Remained the Same
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	Remained the Same
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	Remained the Same
Harmful Algal Bloom	Remained the Same
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	Remained the Same
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	Remained the Same
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor'easter</i>)	Remained the Same
Wildfire (<i>wildfire smoke</i>)	Remained the Same
<i>Future Vulnerability and Impact</i>	
Drought	No Change Anticipated
Earthquake	No Change Anticipated
Heat Wave/Extreme Heat	No Change Anticipated
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	No Change Anticipated
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	No Change Anticipated
Harmful Algal Bloom	No Change Anticipated
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	No Change Anticipated
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	No Change Anticipated
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor'easter</i>)	No Change Anticipated
Wildfire (<i>wildfire smoke</i>)	No Change Anticipated

Table 19 outlines whether development over the past five (5) years has increased or decreased the Village’s vulnerability (i.e., exposure) and impact to these natural hazards, and the anticipated effects changes in development may have on the future probability of occurrence and impacts from these natural hazards.

Table 19. Changes in Development Current and Future Vulnerability and Impact

Hazard	Vulnerability and Impact
<i>Current Vulnerability and Impact</i>	
Drought	Remained the Same
Earthquake	Remained the Same
Heat Wave/Extreme Heat	Remained the Same
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	Remained the Same
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	Remained the Same

Hazard	Vulnerability and Impact
Harmful Algal Bloom	Remained the Same
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	Remained the Same
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	Remained the Same
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor'easter</i>)	Remained the Same
Wildfire (<i>wildfire smoke</i>)	Remained the Same
<i>Future Vulnerability and Impact</i>	
Drought	No Change Anticipated
Earthquake	No Change Anticipated
Heat Wave/Extreme Heat	No Change Anticipated
Flood (<i>riverine, flash/urban, ice jam, dam and levee failure</i>)	No Change Anticipated
Geological Hazards (<i>landslides, land subsidence, mudboils</i>)	No Change Anticipated
Harmful Algal Bloom	No Change Anticipated
Invasive Species and Infestation (<i>Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases</i>)	No Change Anticipated
Severe Weather (<i>severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm</i>)	No Change Anticipated
Winter Weather (<i>blizzards, heavy snow, ice storms, cold wave/extreme cold, nor'easter</i>)	No Change Anticipated
Wildfire (<i>wildfire smoke</i>)	No Change Anticipated

8.1. Future Major Assets

Community assets should include anything that is important to a community's character and function. Assets include people (i.e., underserved population); structures (i.e., new and existing buildings); community lifelines and other critical facilities; natural, historic, and cultural resources; and the economy and other activities that have value to the community. The Village of East Syracuse does not anticipate that future major assets may be exposed or vulnerable to any of the natural hazards identified in this Hazard Mitigation Plan. However, any new assets (e.g., new construction in hazard-prone areas) will be built to comply with the latest building codes and standards, and will be mitigated to protect them from identified and anticipated hazards, especially those expected to increase due to climate change.

9. CRITICAL FACILITIES FLOOD RISK

New York State Department of Environmental Conservation (NYSDEC) Title 6, Chapter V, Subchapter A, Part 502 sets forth local floodplain management criteria for State projects located within flood hazard areas. The law states that no such projects related to critical facilities shall be undertaken in a Special Flood Hazard Area (SFHA) unless built in accordance with certain mitigation specifications, including being raised two (2) feet above the Base Flood Elevation (BFE).⁸ While all vulnerabilities should be assessed and documented, the State places a high priority on exposure to flooding.

⁸ New York State Department of Environmental Conservation. (n.d.). Chapter V – Resource Management Services. Retrieved from <https://dec.ny.gov/regulatory/regulations/chapter-v>.

Jurisdictions must identify all critical facilities, assess their vulnerabilities, and ensure they are protected against a 0.2% chance (500-year) flood event. Critical facilities that are located in an SFHA and/or have been previously flooded must be protected against a repeat of that flood or the 0.2% chance flood event, whichever provides the greater protection. The Plan must document that those critical facilities are protected to a 0.2% flood event, or the previous worst-case flood event. For those that do not meet this level of protection, the Plan must include a mitigation action that meets or exceeds this criterion, or explain why it is not feasible to do so.⁹

Table 20 identifies critical facilities in the community located in the 100-year and 500-year floodplain.

Table 20. Potential Flood Losses to Critical Facilities

Name	Address	Type	Exposure		Potential Loss from 100-Year Flood Event		Facility Protected	Addressed by Proposed Action
			100-Year	500-Year	% Structure Damage	% Content Damage		
Village of East Syracuse Department of Public Works Facility	204 North Center Street East Syracuse, NY 13057	Government Facility	X	X	0%	0%	No	VES-14
Burnet Avenue Pump Station <i>(owned by the Onondaga County Department of Water Environment Protection)</i>	240 Carr Street East Syracuse, NY 13057	Wastewater Pump Station	X	X	0%	0%	No	VES-15
Phelps Street Pump Station <i>(owned by the Onondaga County Department of Water Environment Protection)</i>	120 Phelps Street East Syracuse, NY 13057	Wastewater Pump Station	X	X	0%	0%	No	VES-16

10. HAZARD RISK RANKING

Table 21 presents the local hazard ranking for the Village of East Syracuse of all hazards of concern listed in Volume 1 of this Plan. This ranking summarizes how hazards vary for this jurisdiction. As thoroughly described in Volume 1 of this Plan, the ranking process involves an assessment of the likelihood of occurrence for each hazard, along with its potential impacts on people, property, and the economy. For further details on how the probability, extent, vulnerability, and impact factors in Table 21 were calculated, please refer to Section 4.3 in Volume 1 of this Plan.

It is important to note that the sub hazards for severe weather (i.e., strong winds/damaging winds, severe thunderstorms, tropical storm/hurricane, hail, and tornado), geological hazards (i.e., landslide, land subsidence, and mudboils), flood (i.e., riverine/creek flooding and ice jam, and urban/flash flooding), and winter weather (i.e., blizzards, lake effect snow, nor'easter, and ice storm, and cold wave/extreme cold) were individually ranked in the hazard risk ranking; however, severe weather, geological hazards, flood, and winter weather are each considered as the main hazard throughout this Annex and Volume 1.

⁹ New York State Division of Homeland Security and Emergency Services. (2022). 2022 New York State Hazard Mitigation Planning Standards. Retrieved from <https://www.dhses.ny.gov/system/files/documents/2023/11/2022-nys-mitigation-planning-standards-final.pdf>

Table 21. Village of East Syracuse Hazard Risk Ranking

Hazard Event	Probability Factor	Sum of Weighted Extent Factors	Sum of Weighted Vulnerability Factors	Sum of Weighted Impact Factors	Consequence Score	Total Risk Score <i>(Probability x Consequence)</i>
Flood (Urban/Flash Flood)	3	12	11	29	52	73
Winter Weather (Blizzards, Lake Effect Snow, Nor'easter, Ice Storm)	3	12	14	21	47	67
Severe Thunderstorm <i>(Severe Weather)</i>	3	12	16	14	42	61
Strong Winds/ Damaging Winds <i>(Severe Weather)</i>	3	12	11	16	39	57
Flood (Riverine/Creek, Ice Jam)	2	12	11	29	52	52
Cold Wave/Extreme Cold <i>(Winter Weather)</i>	2	12	14	21	47	48
Heat Wave/Extreme Heat	2	9	11	25	45	46
Drought	2	12	12	13	37	39
Invasive Species and Infestation	2	9	8	18	35	37
Tropical Storm/Hurricane <i>(Severe Weather)</i>	1	9	16	24	49	27
Dam and Levee Failure <i>(Flood)</i>	1	12	11	24	47	26
Hail <i>(Severe Weather)</i>	1	6	16	14	36	21
Earthquake	1	6	16	12	34	20
Tornado <i>(Severe Weather)</i>	1	6	6	22	34	20
Landslide <i>(Geological Hazards)</i>	1	6	6	18	30	18
Harmful Algal Bloom	1	6	6	16	28	17
Land Subsidence <i>(Geological Hazards)</i>	1	3	6	14	23	14
Mudboils <i>(Geological Hazards)</i>	1	3	6	13	22	14

Hazard Event	Probability Factor	Sum of Weighted Extent Factors	Sum of Weighted Vulnerability Factors	Sum of Weighted Impact Factors	Consequence Score	Total Risk Score (Probability x Consequence)
Wildfire (Wildfire Smoke)	1	3	6	11	20	13

Consequence: Sum of all weighted factors.
Extent: Sum of the weighted Extent factors.
Vulnerability: Sum of the weighted Vulnerability factors.

Impact: Sum of the weighted Impact factors.
*Total Risk Score** = Probability x Consequence
 * Normalized to 100

Total Risk Score Legend

Classification	Probability Factor	Extent	Vulnerability	Impact	Consequence Score	Total Risk Score
Low (L)	1	0 – 6	0 – 6	0 – 12	0 – 24	0 – 24
Medium (M)	2	7 – 12	7 – 12	13 – 26	25 – 50	25 – 54
High (H)	3	13 – 18	13 – 18	27 – 39	51 – 75	55 and above

The **legend**—specifically the assignment of low, medium, and high—provides an additional means to qualitatively assess the probability factor, sum of weighted factors, and the total risk scores for each hazard. The **Consequence Score** represents the sum of the Extent, Vulnerability, and Impact Factors. The **Total Risk Score** is a measure of Probability and Consequence.

11. MITIGATION ACTIONS

This section includes the mitigation actions developed to address the risks and vulnerabilities to the hazards identified in this Plan. This Plan serves only to recommend mitigation measures based on the potential for risk reduction and available funding. Implementation of mitigation actions is dependent on risk reduction priorities, feasibility, and available funding. It is also dependent on the cooperation and support of the jurisdiction and/or department responsible for each action item. Additionally, all mitigation actions identified in the 2019 update or before were updated accordingly. Any new mitigation actions are listed as *New* (under Project Status).

The Village of East Syracuse agreed on **14** mitigation actions that apply to the jurisdiction’s properties for which it has jurisdictional responsibility and authority. Three (3) mitigation actions have been completed. A summary of the Village’s mitigation actions status is listed in **Table 22**.

Note: The mitigation actions outlined in this Plan are designed only to address those natural hazards that received a risk ranking of *medium* or *high* during the hazard risk assessment (**Table 21**). Hazards that ranked *low* (earthquakes, geological hazards, and wildfires) will not have specific mitigation actions detailed in this document.

Table 22. Village of East Syracuse Mitigation Action Summary

Status		Mitigation Action Total	
Continuous		7	
In Progress/Not Yet Completed		1	
No Progress/Not Yet Started		3	
New		3	
TOTAL		14	
Complete		3	
Discontinued		2	
Mitigation Actions per Hazard			
Drought	6	Harmful Algal Bloom	5
Earthquake	N/A	Invasive Species and Infestation <i>(Emerald Ash Borer, Hemlock Woolly Adelgid, True Armyworm, Common Reed (Phragmites), Eurasian Watermilfoil, Water Chestnut, Tick-Borne Diseases, Mosquito-Borne Diseases)</i>	5
Heat Wave/Extreme Heat	6	Severe Weather <i>(severe thunderstorms – hail, strong winds/damaging winds, tornadoes, hurricane/tropical storm, nor’easter)</i>	11
Flood <i>(riverine, flash/urban, ice jam, dam and levee failure)</i>	10	Winter Weather <i>(blizzards, heavy snow, ice storms, cold wave/extreme cold)</i>	6
Geological Hazards <i>(landslides, land subsidence, mudboils)</i>	N/A	Wildfire <i>(wildfire smoke)</i>	N/A

A detailed explanation of the Mitigation Strategy can be found in Section 5 of **Volume 1**.

Mitigation Action	Where appropriate, support retrofitting or relocation of structures in high-hazard areas, prioritizing structures that have experienced repetitive losses.				
Action Number	VES-1	Goal(s) Addressed	2, 3, 6	Prioritization Score	13/15
Year Added to Plan	2013	Timeline <i>(estimated)</i>	Ongoing	Implementation Priority	High
Hazard(s) Mitigated	Drought, Heat Wave/Extreme Heat, Flood, Harmful Algal Bloom, Invasive Species and Infestation, Severe Weather, Winter Weather				
Project Status	Continuous	If <i>Discontinued</i> , provide reason.		N/A	
Benefits <i>(Loss Avoided)</i>	High				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department (Floodplain Administrator)	Supporting Agency / Organization <i>(If applicable)</i>		N/A	
Additional Participating Jurisdictions <i>(If applicable)</i>	N/A				
Estimated Cost	High	Potential Funding Source	General Fund (Staff Time), HMGP, FMA		
Critical Facility <i>(Critical Facility located in 1% floodplain?)</i>	No	Additional Details <i>(optional)</i>	Identify facilities that are viable candidates for retrofitting based on cost-effectiveness versus relocation. Where retrofitting is determined to be a viable option, consider implementation of that action based on available funding.		

Mitigation Action	Conduct and facilitate community and public education and outreach for residents and businesses to include, but not limited to, the following, to promote and effect natural hazard risk reduction:				
	<ul style="list-style-type: none"> • Provide and maintain links to the Onondaga County Hazard Mitigation Plan website, and regularly post notices on the municipal homepage referencing the Onondaga County Hazard Mitigation Plan webpages. • Prepare and distribute informational letters to flood vulnerable property owners and neighborhood associations, explaining the availability of mitigation grant funding to mitigate their properties, and instructing them on how they can learn more and implement mitigation. • Use the Village’s e-mail notification systems and newsletters to better educate the public on flood insurance, the availability of mitigation grant funding, and personal natural hazard risk reduction measures. • Work with neighborhood associations, civic and business groups to disseminate information on flood insurance and the availability of mitigation grant funding. 				
Action Number	VES-2	Goal(s) Addressed	1, 2, 3, 4, 5, 6	Prioritization Score	15/15
Year Added to Plan	2013	Timeline <i>(estimated)</i>	Ongoing	Implementation Priority	High
Hazard(s) Mitigated		Drought, Heat Wave/Extreme Heat, Flood, Harmful Algal Bloom, Invasive Species and Infestation, Severe Weather, Winter Weather			
Project Status		Continuous	If <i>Discontinued</i> , provide reason.	N/A	
Benefits <i>(Loss Avoided)</i>		Low			
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department (Floodplain Administrator)		Supporting Agency / Organization <i>(If applicable)</i>	Onondaga County Department of Planning	
Additional Participating Jurisdictions <i>(If applicable)</i>	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility <i>(Critical Facility located in 1% floodplain?)</i>	No	Additional Details <i>(optional)</i>			

Mitigation Action	Actively support and participate in the implementation, monitoring, maintenance, and updating of this Hazard Mitigation Plan, as outlined and defined in Volume 1.				
Action Number	VES-3	Goal(s) Addressed	1, 2, 3, 4, 5, 6	Prioritization Score	15/15
Year Added to Plan	2013	Timeline (estimated)	Ongoing	Implementation Priority	High
Hazard(s) Mitigated	Drought, Heat Wave/Extreme Heat, Flood, Harmful Algal Bloom, Invasive Species and Infestation, Severe Weather, Winter Weather				
Project Status	Continuous	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	High				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department, Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

Mitigation Action	<p>Continue to maintain good standing and compliance under the National Flood Insurance Program (NFIP) through implementation and enforcement of floodplain management requirements that, at a minimum, meet the NFIP requirements. These include:</p> <ul style="list-style-type: none"> • Enforce the flood damage prevention ordinance (e.g., regulating all new and substantially improved construction in Special Hazard Flood Areas). • Participate in floodplain identification and mapping updates. • Provide public assistance/outreach on floodplain requirements and impacts. 				
Action Number	VES-4	Goal(s) Addressed	1, 2, 3, 4, 5, 6	Prioritization Score	15/15
Year Added to Plan	2013	Timeline <i>(estimated)</i>	Ongoing	Implementation Priority	High
Hazard(s) Mitigated		Flood, Severe Weather			
Project Status		Continuous	If <i>Discontinued</i> , provide reason.	N/A	
Benefits <i>(Loss Avoided)</i>		Medium			
Lead Agency / Organization		Village of East Syracuse Building and Code Enforcement Department (Floodplain Administrator)	Supporting Agency / Organization <i>(If applicable)</i>	N/A	
Additional Participating Jurisdictions <i>(If applicable)</i>		N/A			
Estimated Cost		Low	Potential Funding Source	General Fund (Staff Time)	
Critical Facility <i>(Critical Facility located in 1% floodplain?)</i>		No	Additional Details <i>(optional)</i>		

Mitigation Action	Develop, enhance, and implement the Village's existing emergency plans.				
Action Number	VES-5	Goal(s) Addressed	1, 6	Prioritization Score	15/15
Year Added to Plan	2013	Timeline <i>(estimated)</i>	Ongoing	Implementation Priority	High
Hazard(s) Mitigated	Drought, Heat Wave/Extreme Heat, Flood, Harmful Algal Bloom, Invasive Species and Infestation, Severe Weather, Winter Weather				
Project Status	Continuous	If <i>Discontinued</i> , provide reason.		N/A	
Benefits <i>(Loss Avoided)</i>	High				
Lead Agency / Organization	Village of East Syracuse Board of Trustees	Supporting Agency / Organization <i>(If applicable)</i>		N/A	
Additional Participating Jurisdictions <i>(If applicable)</i>	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility <i>(Critical Facility located in 1% floodplain?)</i>	No	Additional Details <i>(optional)</i>			

Mitigation Action	Develop, enhance, and maintain mutual aid agreements with surrounding municipalities and counties.				
Action Number	VES-6	Goal(s) Addressed	1, 5, 6	Prioritization Score	15/15
Year Added to Plan	2013	Timeline <i>(estimated)</i>	Ongoing	Implementation Priority	High
Hazard(s) Mitigated	Drought, Heat Wave/Extreme Heat, Flood, Harmful Algal Bloom, Invasive Species and Infestation, Severe Weather, Winter Weather				
Project Status	Continuous	If <i>Discontinued</i> , provide reason.		N/A	
Benefits <i>(Loss Avoided)</i>	High				
Lead Agency / Organization	Village of East Syracuse Board of Trustees	Supporting Agency / Organization <i>(If applicable)</i>		N/A	
Additional Participating Jurisdictions <i>(If applicable)</i>	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility <i>(Critical Facility located in 1% floodplain?)</i>	No	Additional Details <i>(optional)</i>			

Mitigation Action	Support the return of Contract No. 5 Basin, a detention basin located in the Village of East Syracuse at W. Second Street to its original design grades and capacity. This may include, but not be limited to, the removal of accumulated sediment. Further studies may be needed to determine additional requirements and/or needs.				
Action Number	VES-7	Goal(s) Addressed	N/A	Prioritization Score	N/A
Year Added to Plan	2013	Timeline (estimated)	N/A	Implementation Priority	N/A
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	Complete	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	N/A				
Lead Agency / Organization	Village of East Syracuse Department of Public Works, Onondaga County Department of Water Environment Protection	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	N/A	Potential Funding Source	N/A		
Critical Facility (Critical Facility located in 1% floodplain?)	N/A	Additional Details (optional)			

Mitigation Action	Support improvement of conveyance conditions by removing remaining obstructions from the watercourse located at the abandoned site of the CSX Railroad crossing.				
Action Number	VES-8	Goal(s) Addressed	N/A	Prioritization Score	N/A
Year Added to Plan	2013	Timeline (estimated)	N/A	Implementation Priority	N/A
Hazard(s) Mitigated	N/A				
Project Status	Discontinued	<i>If Discontinued, provide reason.</i>	This location is on private property, and the Village has neither jurisdiction nor oversight regarding this action.		
Benefits (Loss Avoided)	N/A				
Lead Agency / Organization	Village of East Syracuse Department of Public Works, Onondaga County Department of Water Environment Protection	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	N/A	Potential Funding Source	N/A		
Critical Facility (Critical Facility located in 1% floodplain?)	N/A	Additional Details (optional)			

Mitigation Action	Support the upsize to the culverts at Exeter Street, Thompson Road, two (2) private access roads, and the abandoned CSX Railroad crossing to improve the conveyance capacity of the Ley Creek (South Branch) watercourse. These improvements would lower upstream water surface elevations and mitigate flooding in the area.				
Action Number	VES-9	Goal(s) Addressed	N/A	Prioritization Score	N/A
Year Added to Plan	2013	Timeline (estimated)	N/A	Implementation Priority	N/A
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	Complete	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	N/A				
Lead Agency / Organization	Village of East Syracuse Department of Public Works, Town of DeWitt Planning and Zoning Department	Supporting Agency / Organization (If applicable)	Onondaga County Department of Water Environment Protection		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	N/A	Potential Funding Source	N/A		
Critical Facility (Critical Facility located in 1% floodplain?)	N/A	Additional Details (optional)			

Mitigation Action	Coordinate with the County, as appropriate, to ensure the Ley Creek (South Branch) and its culverts, which fall under the County’s jurisdiction, remain clear of debris, structurally sound, and operable. If the Village identifies issues requiring maintenance or repairs, it will notify the County of appropriate actions to ensure flood risk reduction.				
Action Number	VES-10	Goal(s) Addressed	1, 5	Prioritization Score	10/15
Year Added to Plan	2013	Timeline (estimated)	Ongoing	Implementation Priority	High
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	Continuous	If <i>Discontinued</i> , provide reason.		N/A	
Benefits (Loss Avoided)	High				
Lead Agency / Organization	Village of East Syracuse Department of Public Works, Onondaga County Water Environment Protection	Supporting Agency / Organization (If applicable)		N/A	
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	High	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

Mitigation Action	Conduct a detailed topographic study in the identified critical areas of the Beartrap-Ley Creek Drainage District to determine which individual properties are most at risk, to assist with determining mitigation actions.				
Action Number	VES-11	Goal(s) Addressed	N/A	Prioritization Score	N/A
Year Added to Plan	2013	Timeline (estimated)	N/A	Implementation Priority	N/A
Hazard(s) Mitigated	N/A				
Project Status	Discontinued	<i>If Discontinued, provide reason.</i>	The Village has neither jurisdiction nor oversight regarding this action.		
Benefits (Loss Avoided)	N/A				
Lead Agency / Organization	Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	N/A	Potential Funding Source	N/A		
Critical Facility (Critical Facility located in 1% floodplain?)	N/A	Additional Details (optional)			

Mitigation Action	Conduct drainage improvements in Block 200 of E. First Street and E. Second Street by installing a stormwater pipe of approximately 800 feet				
Action Number	VES-12	Goal(s) Addressed	N/A	Prioritization Score	N/A
Year Added to Plan	2019	Timeline (estimated)	N/A	Implementation Priority	N/A
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	Complete	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	N/A				
Lead Agency / Organization	Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	N/A	Potential Funding Source	N/A		
Critical Facility (Critical Facility located in 1% floodplain?)	N/A	Additional Details (optional)			

Mitigation Action	Conduct a tree study within the Village of East Syracuse to identify all high risk trees and remove all identified high risk trees and infected trees. There are numerous dead trees throughout the Village, and in the event of severe or winter weather, downed trees can lead to power outages, safety hazards, or closed roadways, which impact access (e.g., emergency services) to areas in the Village.				
Action Number	VES-13	Goal(s) Addressed	1, 4	Prioritization Score	13/15
Year Added to Plan	2019	Timeline (estimated)	1 to 2 Years	Implementation Priority	High
Hazard(s) Mitigated	Invasive Species and Infestation Severe Weather, Winter Weather				
Project Status	In Progress/Not Yet Completed	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	Medium				
Lead Agency / Organization	Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Medium	Potential Funding Source	General Fund (Staff Time), HMGP		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

Mitigation Action	Retrofit the Village’s Department of Public Works building and ensure it is built to the 500-year flood elevation.				
Action Number	VES-14	Goal(s) Addressed	1, 3	Prioritization Score	11/15
Year Added to Plan	2019	Timeline (estimated)	4 to 5 Years	Implementation Priority	High
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	No Progress/Not Yet Started	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	High				
Lead Agency / Organization	Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	High	Potential Funding Source	General Fund (Staff Time), HMGP, FMA		
Critical Facility (Critical Facility located in 1% floodplain?)	Yes	Additional Details (optional)			

Mitigation Action	Encourage and support the retrofit of the Burnet Avenue Pump Station (owned by the Onondaga County Department of Water Environment Protection) to the 500-year flood level by discussing mitigation options with the facility operator/owner.				
Action Number	VES-15	Goal(s) Addressed	1, 2, 6	Prioritization Score	11/15
Year Added to Plan	2019	Timeline (estimated)	4 to 5 Years	Implementation Priority	High
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	No Progress/Not Yet Started	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	Low				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department (Floodplain Administrator)	Supporting Agency / Organization (If applicable)	Onondaga County Department of Water Environment Protection		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	Yes	Additional Details (optional)	The pump station is located in the 100-year floodplain. The Village does not have jurisdiction over the facility; therefore, the Village will contact the facility's manager and discuss options for retrofitting the facility.		

Mitigation Action	Encourage and support the retrofit of the Phelps Street Pump Station (owned by the Onondaga County Department of Water Environment Protection) to the 500-year flood level by discussing mitigation options with the facility operator/owner.				
Action Number	VES-16	Goal(s) Addressed	1, 2, 6	Prioritization Score	11/15
Year Added to Plan	2019	Timeline (estimated)	4 to 5 Years	Implementation Priority	High
Hazard(s) Mitigated	Flood, Severe Weather				
Project Status	No Progress/Not Yet Started	<i>If Discontinued, provide reason.</i>	N/A		
Benefits (Loss Avoided)	Low				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department (Floodplain Administrator)	Supporting Agency / Organization (If applicable)	Onondaga County Department of Water Environment Protection		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	Yes	Additional Details (optional)	The pump station is located in the 100-year floodplain. The Village does not have jurisdiction over the facility; therefore, the Village will contact the facility's manager and discuss options for retrofitting the facility.		

Mitigation Action	Replace the North Center Street sanitary sewer main between Manlius Street and Ellis Street, approximately 300-lf.				
Action Number	VES-17	Goal(s) Addressed	1, 3, 4, 5	Prioritization Score	12/15
Year Added to Plan	2025	Timeline (estimated)	6 Months to 1 Year	Implementation Priority	High
Hazard(s) Mitigated	Flood				
Project Status	New	If <i>Discontinued</i> , provide reason.		N/A	
Benefits (Loss Avoided)	High				
Lead Agency / Organization	Village of East Syracuse Department of Public Works	Supporting Agency / Organization (If applicable)	Onondaga County Department of Water Environment Protection		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	High	Potential Funding Source	General Fund (Staff Time), Water Infrastructure Improvement and Intermunicipal Grant, HMGP		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

Mitigation Action	Implement a strategic, adaptive community-based resilience initiative to build long-term community resilience to drought. The initiative will utilize a multi-channel public outreach campaign to provide residents, businesses, and the agricultural community with practical knowledge and resources needed for drought mitigation strategies (e.g., water conservation, the use of drought-tolerant landscaping).				
Action Number	VES-18	Goal(s) Addressed	2	Prioritization Score	15/15
Year Added to Plan	2025	Timeline (estimated)	2 to 4 Years	Implementation Priority	High
Hazard(s) Mitigated	Drought				
Project Status	New	If <i>Discontinued</i> , provide reason.		N/A	
Benefits (Loss Avoided)	Low				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department	Supporting Agency / Organization (If applicable)	N/A		
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

Mitigation Action	Implement a strategic, adaptive community-based resilience initiative to build long-term community resilience against heat waves/extreme heat events. The initiative will utilize a multi-channel public outreach campaign to educate the public about public health illnesses associated with extreme heat, protective actions, and available resources to reduce risk and exposure during heat wave/extreme heat events. Outreach efforts will specifically target individuals who are particularly vulnerable during heat waves/extreme heat events, including, but not limited to, the elderly, young children, pregnant women, individuals with chronic illnesses, individuals without access to air conditioning, and outdoor workers (e.g., agricultural workers). Additionally, implementing climate adaptation measures, such as identifying community centers that can serve as cooling centers, will also be considered.				
Action Number	VES-19	Goal(s) Addressed	2	Prioritization Score	15/15
Year Added to Plan	2025	Timeline (estimated)	2 to 4 Years	Implementation Priority	High
Hazard(s) Mitigated	Heat Wave/Extreme Heat				
Project Status	New	If <i>Discontinued</i> , provide reason.		N/A	
Benefits (Loss Avoided)	Low				
Lead Agency / Organization	Village of East Syracuse Building and Code Enforcement Department	Supporting Agency / Organization (If applicable)		N/A	
Additional Participating Jurisdictions (If applicable)	N/A				
Estimated Cost	Low	Potential Funding Source	General Fund (Staff Time)		
Critical Facility (Critical Facility located in 1% floodplain?)	No	Additional Details (optional)			

APPENDIX A. HAZARD MAPS

These maps are based on the best available data at the time of the preparation of this Plan and are considered to be adequate for planning purposes. Maps have only been generated for those hazards that can be distinctly represented using available mapping technologies and data, and for which the Village of East Syracuse has significant vulnerability.

- **Figure 1** illustrates the jurisdiction's planning area boundary.
- **Figure 2** illustrates the critical facilities within the planning area.
- **Figure 3** illustrates the jurisdiction's Special Flood Hazard Area (SFHA), including the Flood Zones and the 500-year floodplain in the planning area. Flood Insurance Rate Maps (FIRMs) display flood zones, floodplain boundaries, and Base Flood Elevation (BFE), which are used for floodplain management, flood insurance ratings, and to determine flood insurance requirements. FIRMs show areas with a 1% chance of flooding each year, commonly known as the 100-year floodplains, and are illustrated as the SFHA (Flood Zones A, AE, and AO on the map). The 500-year floodplains show areas with a 0.2% chance of flooding each year.

June 11, 2024

Dear Onondaga County Hazard Mitigation Plan Partners -

You are receiving this email as the local elected official and/or Jurisdictional Point-of-Contact for the *Onondaga County Multi-Jurisdictional Hazard Mitigation Plan (HMP)*.

The Onondaga County Department of Planning is now undertaking a required 5-year review and update to our Hazard Mitigation Plan, which is a FEMA-required planning document intended to document our local vulnerability to certain natural hazards, and help reduce loss of life and damage to property in the event of a natural disaster. As a local municipality and as a prior participant in the County's Multi-Jurisdictional Hazard Mitigation Plan, your participation in this plan update process is strongly encouraged.

What is required to participate?

To assist local jurisdictions in meeting FEMA hazard mitigation requirements, the Department of Planning has applied for and received FEMA funding for the multi-jurisdictional plan update for all participating jurisdictions, and has hired a consultant, Integrated Solutions Consulting (ISC), to work with the Planning Department to manage the plan update process and facilitate your involvement.

There is no cost to participating jurisdictions. The Planning Team will be completing the lion's share of the plan update. The primary local requirement is a commitment of staff to review and update your Jurisdictional Annex (your chapter of the plan) with any updates to local regulations, hazard events occurring in your community and potential mitigation activities, with assistance from the Planning Team. Once the plan has been approved by FEMA, formal adoption of the plan by participating jurisdictions is also required.

Why is this so important?

Please note that approved mitigation plans are a requirement to be eligible for projects funded under FEMA's Hazard Mitigation Assistance (HMA) grant programs: the Hazard Mitigation Grant Program (HMGP); the Building Resilient Infrastructure and Communities (BRIC) Program; and the Flood Mitigation Assistance (FMA) Program and other FEMA programs, including the Rehabilitation of High Hazard Potential Dams (HHPD). Mitigation plans must be reviewed and updated every five years and formally adopted by each participating jurisdiction's governing body as part of receiving approval.

Statement of Intent

As we begin the 5-year update, the Department of Planning is requesting that you confirm your intent to participate, and identify two points of contact that will represent your community or special district during the update of this plan. Please note that the planning point-of-contact is not expected to do all of the work required of the jurisdiction. Rather, they are tasked with the responsibility to ensure work gets completed by the appropriate people within their jurisdiction and within specified periods of time.

**Statement of Intent to Participate in the
2024 Onondaga County Multi-Jurisdictional Hazard Mitigation Plan**

The purpose of this letter is to establish commitment from, and a cooperative working relationship between, all participating jurisdictions in the development and implementation of the 2024 Onondaga County Multi-Jurisdictional Hazard Mitigation Plan (HMP). In addition, the intent of this form is to ensure that the Plan update is developed in accordance with Title 44 of the Federal Code of Regulations Part 201.6; that the planning process is conducted in an open manner involving community stakeholders; that it is consistent with each participating jurisdiction's policies, programs, and authorities; and that it is an accurate reflection of the community's values.

To meet this requirement and to help reduce the loss of life and damage to property in the event of a natural disaster, our municipality intends to participate in a federally funded grant initiative to update the 2024 Onondaga County Multi-Jurisdictional Hazard Mitigation Plan.

We understand that the planning process will include a limited number of meetings and/or calls between Planning Team representatives and representatives from participating municipalities and agencies. The subject of the meeting(s) will be to:

- Inform participants on the needs and methods for identifying and prioritizing hazards;
- Share information on hazards affecting local jurisdictions;
- Provide information related to local assets, plans/ordinances, hazard events and damages, new development, etc. within the jurisdiction; and
- Determine possible projects to reduce the impact of future incidents involving hazards which are prerequisites to municipalities later applying for hazard mitigation grant funds.

We recognize the importance of having an updated multi-jurisdictional hazard mitigation plan to help safeguard the lives and property of our citizens and commit to participating in this process with Onondaga County.
